Product Description

Dc 12v Input Voltage Flexible Led Lights Customizable For Interior Advertising Light Box Styling Requirements

Product Description:

Our LED light strips use the latest 2835 lamp type technology, ensuring bright and efficient lighting with a lifespan of up to 50,000 hours. This means you can enjoy the benefits of our LED light strips for years to come without having to worry about replacing bulbs or fixtures. One of the best features of our LED flexible light strips is their dimmable functionality. With the dimming feature, you can adjust the light brightness as needed to create the perfect ambiance for any occasion. Whether you are looking for bright and vibrant lighting or warm and cozy lighting, our dimmable LED light strips have you covered.

Our LED flexible light strips come in a variety of glow colors, allowing you to choose from a wide range of colors to suit your mood or decor. With the Single Color S-Type light strips, you can create a stunning visual display that will impress your guests or clients and make your space stand out.

Whether you are looking for a lighting solution for your home, business, or any other application, our LED flexible light strips are the perfect choice. Thanks to their long lifespan, high lighting efficiency, and dimmable functionality, you can enjoy the benefits of our LED light strips for years to come.

Emitting Color	White, White Warm

Applications:

The LED Flexible Light Strip is a single-color strip that is 5 meters long per roll and operates on a DC 12V input voltage. The product is easy to install with its adhesive backing, making it perfect for DIY projects and home decoration. This LED strip light is versatile and can be used in a variety of occasions and scenarios, some of which include:

Under-cabinet lighting in the kitchen and bathroom
Cove lighting in the living room and bedroom
Accent lighting in the hallway and staircase
Backlighting for TVs and computer monitors
Lighting for retail displays and signage

S-shaped LED Strips are a great choice for those who want their lighting to be more versatile. These sticky LED strips come in a variety of color options and can be controlled with a remote control, allowing users to create custom lighting scenes and effects. Whether for a party or just to add some ambiance to a room, S-shaped LED Strips are a fun and practical lighting solution. To order, simply contact Linkop and request a minimum of 100 meters of LED Flexible Strips in your desired packaging (bag). Payment can be made via TT and your order will be shipped immediately. With high-quality construction, easy installation, and a wide range of applications, LED Flexible Strips are a great addition to any home or business.
