Product Description

Led Silicone Neon Light With 12v High Brightness 612 Flexible Outdoor Light Sign Shape Waterproof

Product Description:

This LED neon product is designed to be flexible, and you can twist and bend it to fit any shape or surface. Its silicone tube light strip is both durable and waterproof, making it suitable for use in areas with high humidity or moisture.

Perfect for those who want to adjust the brightness of their lighting. With the adjustable brightness feature, you can customize the lighting to your needs. Whether you need bright, vibrant lights or a more subtle and relaxing atmosphere, our LED neon product can provide you with the perfect lighting solution.

LED neon lights are used in a wide range of applications, including architectural lighting, signage, and decoration. It is also suitable for outdoor advertising, such as billboards and signs. With 12V 6*12 lamp power, this product is both powerful and energy-efficient, making it a great choice for those who want to save money on electricity bills.

In short, our LED neon product is a great choice for those who want a versatile and flexible lighting solution. Its SMD 2835 technology ensures efficiency and longevity, while its silicone tube light strip and silicone neon lamp make it durable and waterproof. Our LED neon product is a great choice for anyone who wants a high-quality lighting solution.

Features:

Product Name: LED Neon Light
Coating: Double
Power: 10W/m
Type: SMD 2835
Gas Type: Ne
Specification: 6*12
Features:
Single color neon lights
Pixel neon lights
Flexible Neon light

Technical Parameters:

Max Connect Length	50m
Color	Multi-color
Warranty	3 Years
Brightness	Adjustable
Specification	6*12
Lamp Power	DC12V
Cutable Unit	8.9mm
Lamp Body Material	Plastic, FPC+LED+Silicone Tube
Power	10W/m
Viewing Angle	120

Applications:

One of the biggest advantages of this product is that it is waterproof and suitable for outdoor use. This product can withstand all kinds of weather conditions and is

perfect for lighting up buildings, gardens and landscapes. LED neon products are not only waterproof, but also have up to 10+ color options, perfect for creating colorful dynamic lighting effects.

This product can also be cut into 8.9mm units, and the length can be easily customized according to user needs. The voltage of this product is DC12V, which guarantees energy saving and safe use. LED neon products can be used in a variety of occasions, including:

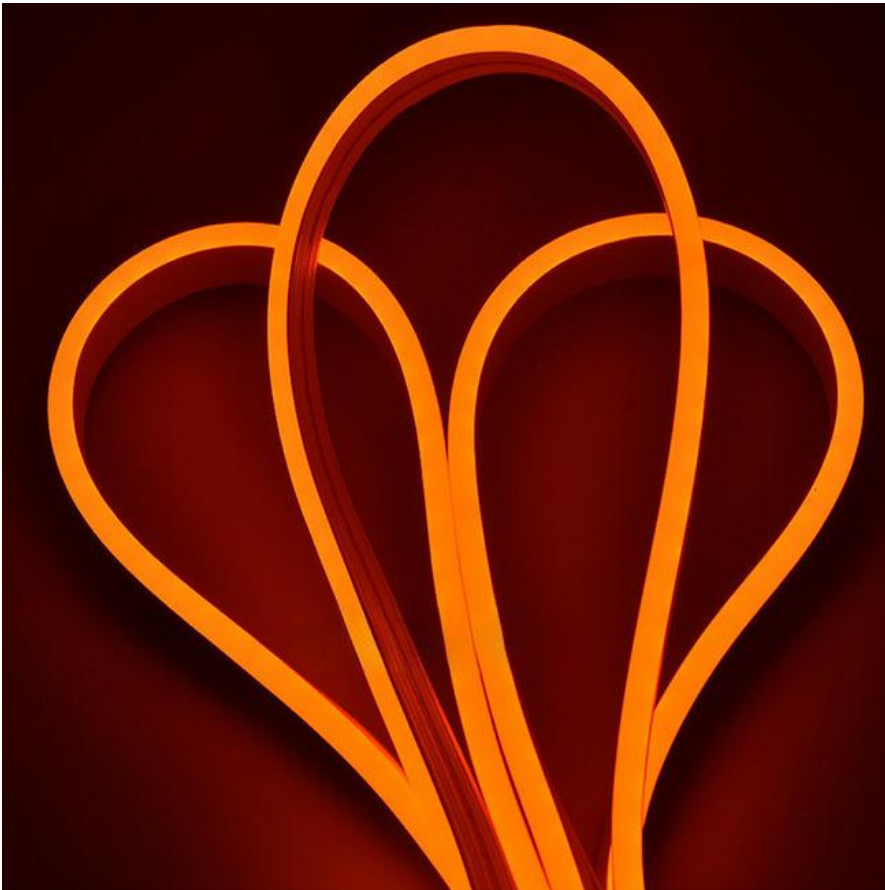

Wedding Ceremonies - The LED Neon Light product can be used to create a romantic ambiance, making it perfect for weddings and other similar events.

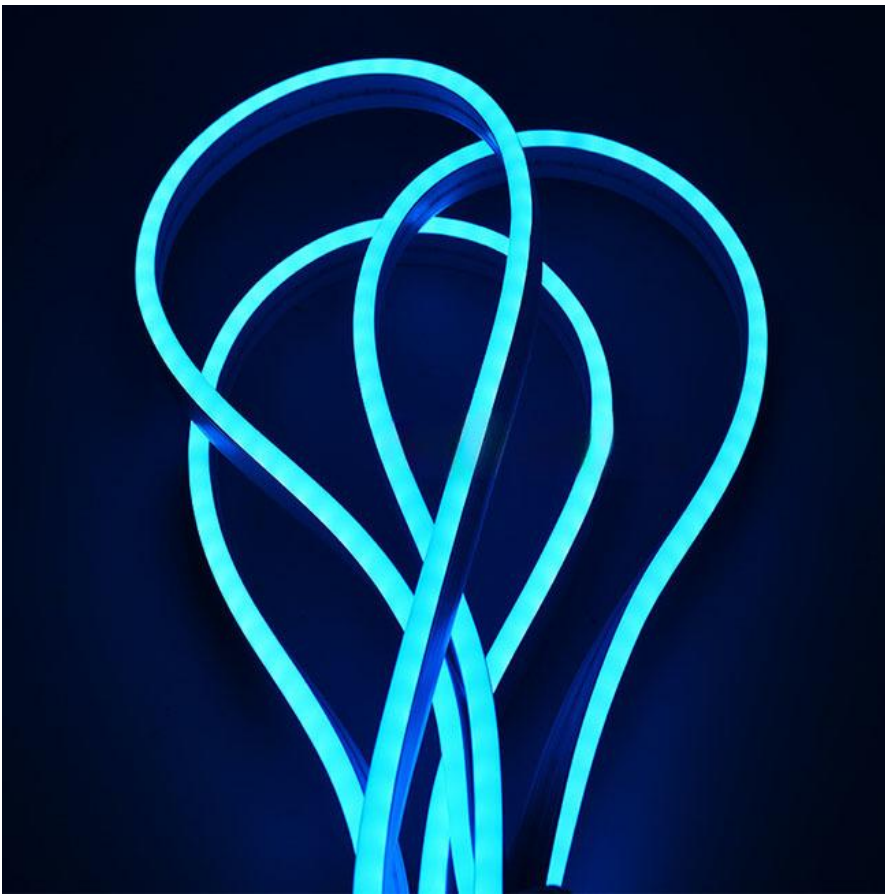

Advertising Signs - The LED Neon Light product is perfect for creating eye-catching and dynamic advertising signs that can attract customers and increase sales.

Home Decor - The LED Neon Light product is perfect for adding a touch of style and elegance to the home interior. It can be used to create an ambiance that reflects the user's personality.

Pixel Neon Lights - The LED Neon Light product can be used to create pixel neon lights that are perfect for creating text and images that can be displayed in various locations.
