Product Description

180° Beam Angle Cob Light Strip 24v Dual Color Temperature Cct Linear Light

Product Description:

With a lifespan of up to 50,000 hours, our COB LED light strip is an excellent long-term investment for those who value durability and cost-effectiveness. This light strip uses the COB LED type, which produces bright, even light, making it ideal for a variety of applications, including residential, commercial, and industrial use.

Our COB LED light strip operates at 24V and has a color temperature index of 2700K-6500K. This light strip is not waterproof and is suitable for indoor use. It also features 608 LEDs, making it one of the most powerful and versatile lighting options on the market.

Order your COB LED light strip today and experience the benefits of energy-efficient, long-lasting, and versatile lighting!

Features:

Product Name: COB LED Light Strip
Color: Dual color temperature (white light + warm light)
Cutttable Length: 25MM
Diameter: 10mm
Color Temperature: CCT
Beam Angle: 180 Degrees

Technical Parameters:

Beam Angle	180 Degrees
Voltage	24V
Waterproof	IP20
Width	10mm
Cutttable Length	25MM
Led Type	COB
Product Attribute	Dual Color Temperature
Lifespan	50,000 Hours
Operating Voltage	24V
Led Quantity	608

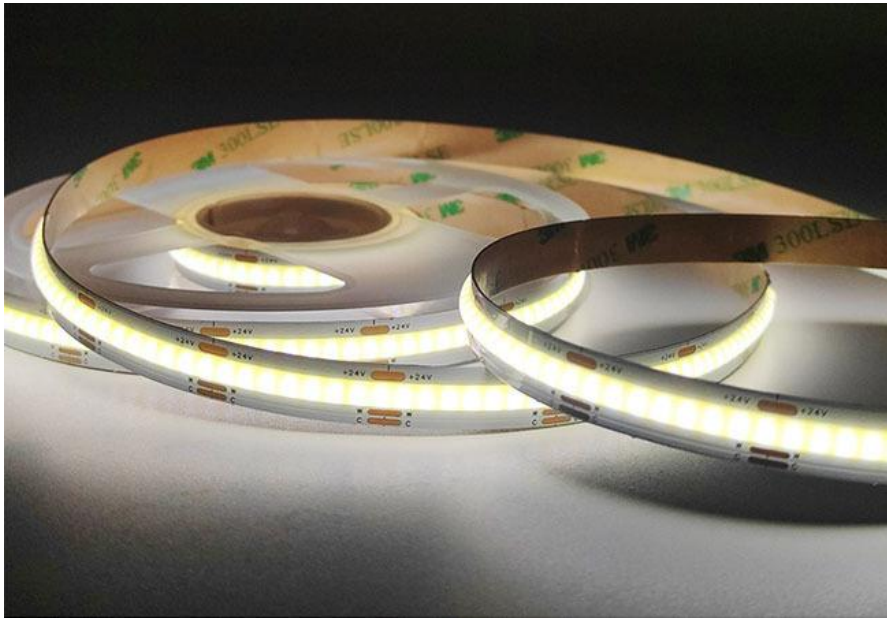

Applications:

The minimum order quantity for this product is 10 meters and the price is just \$3.4 per meter, making it an affordable option for a variety of projects. Each strip comes packaged in a convenient bag and can be delivered within 3-8 days of ordering. Payment terms are TT and Linkop has a supply ability of 200000 meters per month, so you can be confident that your order will be fulfilled in a timely manner. The LC-KWGD2023-COB3 LED light strip has an IP20 rating, making it suitable for indoor use. With a lifespan of 50,000 hours, you can enjoy long-lasting and reliable lighting for years to come. The strip is also cuttable at 25mm intervals, giving you the flexibility to customize the length to fit your specific project needs.

The strip has a beam angle of 180 degrees, which means it provides a wide and even spread of light. The color temperature is CCT, allowing you to choose between warm and cool lighting options to create the perfect ambiance.

This flexible strip lamp operates on 24V, providing consistent and reliable power to your lighting project. The strip is also arbitrarily croppable, meaning you can cut it to fit into any space or shape that you need.

Overall, the LC-KWGD2023-COB3 LED light strip from Linkop is a versatile and affordable lighting option that is perfect for a variety of occasions and scenarios. Whether you are looking to add some ambiance to your home, create a unique lighting display for an event, or enhance your retail space, this LED light strip is the perfect choice.
