Product Description

Cob Led Strip 480leds/m 5v Ultra-narrow 2.7mm To Meet Customized Lighting Needs

Product Description:

One of the main benefits of COB LED strips is their exceptionally long lifespan. Rated to last up to 50,000 hours, this strip is designed to provide long-lasting, reliable lighting for a variety of applications. Whether you use it for accent lighting, task lighting, or general lighting, you can be confident that this strip will continue to perform at a high level for years to come.

In addition to its impressive lifespan, COB LED strips come with a 1-year warranty, giving you added peace of mind and protection against any potential defects or issues. This warranty ensures that you can trust the quality and durability of this product and that you are making a smart investment for your lighting needs.

COB LED strips are also incredibly versatile and flexible, allowing you to install it in a variety of configurations and patterns to achieve your desired lighting effects. With 480 LED beads per meter, you can be sure that your entire space will receive bright, even lighting, with no dark spots or areas of uneven lighting.

With a width of just 2.7mm and its flexibility, this strip can be easily installed in a variety of spaces. Whether you mount it on a wall, molding, or other surface, it can be done quickly and easily without the need for any special tools or equipment.

Overall, COB LED light strips are a high-quality and reliable lighting solution that is ideal for a variety of applications. From accent and task lighting to general illumination, this light strip provides bright, even lighting that will last for years. It is a smart investment for anyone who needs high-quality lighting.
