Product Description

Ce/rohs Certified Cob Light Strip 12v576 Lamp Rgb Flexible Light Strip Luminous Flux 10000lm/m

Product Description:

This light strip is 5 meters in length and 12mm in width, making it the perfect size for a variety of applications. Whether you want to add lighting to your kitchen, bedroom, or living room, this light strip is the perfect choice. Its compact size allows you to install it in tight spaces, and the RGB color-changing feature allows you to create a variety of different moods and atmospheres. The COB RGB light strip is easy to install, with a self-adhesive backing that allows you to quickly and easily attach it to any surface. The strip is also rated IP20, which means it is suitable for indoor use and is protected against dust. This makes it the perfect choice for homes and offices where a clean and dust-free environment is necessary. The RGB color-changing feature of this light strip is perfect for creating a variety of different moods and atmospheres. Whether you want to create a relaxing and peaceful environment or a vibrant and energetic one, the COB RGB light strip is the perfect choice. With a variety of different colors to choose from, you can create the perfect lighting for any occasion. In conclusion, the COB RGB light strip is the perfect choice for anyone looking to add ambient lighting to their home or office. Its compact size, customizable length, and color-changing feature make it the perfect choice for a variety of different applications. With a self-adhesive backing and a rating of IP20, this light strip is easy to install and perfect for indoor use. So why wait? Order your COB RGB light strip today and start enjoying the benefits of beautiful, customizable lighting!

Applications:

The cob RGB light strip can be used in homes, offices, restaurants, bars, and other commercial places to create an ambiance and set the mood. The dimmable feature makes it easy to adjust the brightness according to the requirement and create a comfortable environment. The number of lamp beads ensures that the light emitted is bright and evenly distributed, creating a perfect lighting atmosphere. The arbitrary cropping feature makes it easy to customize the length of the light strip according to the requirement, making it suitable for different applications. It can be installed on walls, ceilings, floors, and other surfaces, making it a versatile lighting solution. The COB LED technology ensures that the light emitted is consistent and of high quality, providing a long-lasting lighting solution. The Linkop LC- LS12V756D LED light strip is CE certified, ensuring that it meets the required quality standards. It has a minimum order quantity of 10 meters and is priced at \$8.25 per meter, making it an affordable lighting solution. The packaging details include a bag, ensuring that the product is delivered safely. The delivery time is between 3-8 days, and the payment terms are TT. With a supply ability of 200000 meters/month, the Linkop LC- LS12V756D LED light strip is readily available to meet the growing demand for a flexible strip lamp. Its versatility, reliability, and affordability make it a preferred choice for different lighting needs, providing a long-

lasting lighting solution for both indoor and outdoor applications.
