12v High Brightness LED Strip Lights 2835 Dual Color Temperature With UI Certification

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: LINKOP
- Certification: UL
- Model Number: LC-KW-MG-10
- Minimum Order Quantity: 10 meters
- Price: $2.8/m
- Packaging Details: bag
- Delivery Time: 3 working days
- Payment Terms: T/T
- Supply Ability: 200,000 m/month

Product Specification

- Luminous Color: Dual Color
- Power: 9.5W/m
- Lamp Bead Lumen: 26-28lm
- Display Index: ≥90
- Led Quantity: 120/m
- Power Supply: 12V
- Led Specification: SMD 2835
- Highlight: **UI Certification LED Strip Lights**,
  Dual Color Temperature LED Strip Lights,
  12v LED Strip Lights

12v High Brightness 2835 Dual Color Temperature Led Light With Ul Certification

Product description:

1. **Dual Color Temperature Flexibility**: The LED2835 Dual Color Temperature LED Strip allows you to effortlessly switch between warm and cool white light, providing versatile lighting solutions for any environment.

2. **High-Efficiency Illumination**: With a power consumption of just 9.5W/m and a luminous efficacy of 26-28lm per LED, our strip delivers bright, energy-efficient lighting that reduces electricity costs and enhances visibility.

3. **Premium Quality and Durability**: Constructed with a 4.5mm pure copper circuit board, our LED strip guarantees excellent conductivity and longevity, boasting an impressive lifespan of 50,000 hours for lasting performance.

4. **Wide Beam Angle**: Featuring a 120° beam angle, the LED2835 strip provides optimal light distribution, making it perfect for ambient lighting, task lighting, or accent lighting in residential and commercial settings.

5. **Safety and Reliability**: UL certified for your peace of mind, this low-voltage flexible strip is designed for safe installation and operation, ensuring a reliable light source for a variety of applications in your home or business.

Features:

Product Name: Dual color temperature light strip
Led Type: 2835
Model: LC-KW-MG-10
Size: 10mm
Working Voltage: 12V
Lifespan: 50,000 Hours

Technical Parameters:

| Usage	Indoor
Led Type	2835
Working Voltage	12V
Specification	10mm
Colour	Dual color temperature
Power	9.5w/m
Model	LC-KW-MG-10
Shape	Flexible Tube
Color Jacket	3000K+6500K
Cuttable	Yes

Application:

This product is a non-waterproof IP20 light strip, suitable for indoor use only, and is designed for quantitative engineering use. It needs to be connected to a DC12V power adapter and a controller to use, and the light brightness and switch can be adjusted by the remote control.
The LED light strip has passed CE certification, and the minimum order quantity is 10 meters. The price of this product is US$2.8 per meter, 5 meters/roll, and moisture-proof and anti-static packaging bags.
The delivery time of this product is 3-8 days, and the payment terms are TT. The supply capacity of this product is 200,000 meters per month.
LED monochrome light strips are suitable for various applications and scenarios. The following are some common applications and scenarios: home, shopping malls, supermarkets, decorative lighting, etc.
