

## Adjustable Brightness Magnetic LED Motion Sensor Light – 120° Wide Detection Wireless Rechargeable

Our Product Introduction

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Linkop
- Certification: CE
- Minimum Order Quantity: 100 meter
- Price: \$0.35/Pcs
- Packaging Details: bag
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 500000meter/ month

### Product Specification

- Motion Detection Angle: 120°
- Power Supply: Rechargeable Lithium Battery
- Installation: Magnetic Base + Adhesive Metal Plate
- Brightness: Adjustable (Low/Medium/High)
- Sensor Type: Passive Infrared (PIR)
- Auto-Off Timer: Approx. 15–20 Seconds After No Motion
- Material: ABS + PC Plastic Housing
- Charging Method: USB (cable Included)
- Usage Environment: Indoor (dry Areas) – IP20

## Product Description

### Product Summary (Meta Description)

A compact, wireless LED motion sensor light with 120° detection angle, adjustable brightness, and magnetic installation. Ideal for closets, cabinets, hallways, and furniture lighting in smart homes and commercial interiors.

### Key Features

**120° Wide Motion Detection Angle** – Covers broad indoor areas for responsive, hands-free lighting.

**Adjustable Brightness Levels** – Customize light intensity to suit different environments and energy-saving needs.

**Magnetic & Tool-Free Installation** – Installs easily on metal surfaces or mounting plates—no wiring required.

**Wireless & Rechargeable** – Powered by a built-in lithium battery, no cords or constant replacements needed.

**Compact & Sleek Design** – Perfect for under-cabinet, stairway, wardrobe, or hallway use.

**Energy Efficient & Eco-Friendly** – Automatically turns on when motion is detected and off after inactivity.

### Product Description

Bring light exactly where you need it—with no drilling, no wires, and full control over brightness. Our **Adjustable Brightness Magnetic LED Motion Sensor Light** is designed for smart homes and commercial interiors that demand both function and style.

Equipped with a **120° wide-angle motion sensor**, this light automatically turns on when it detects movement and switches off after a set time, saving energy and increasing convenience. The **adjustable brightness feature** allows you to select the ideal lighting level for any space—bright for stairways, soft for bedside use.

The **magnetic base** allows for quick and easy mounting to any metal surface or included adhesive plate. And thanks to its **rechargeable battery**, there's no need to constantly replace batteries or install permanent wiring. This makes it ideal for cabinets, closets, hallways, kitchens, bathrooms, or as a temporary lighting solution for rental properties and display cases.

### Technical Specifications

Specification	Detail
Motion Detection Angle	120°
Power Supply	Rechargeable lithium battery
Installation	Magnetic base + adhesive metal plate
Brightness	Adjustable (Low/Medium/High)
Sensor Type	Passive infrared (PIR)
Auto-Off Timer	Approx. 15–20 seconds after no motion
Material	ABS + PC plastic housing
Charging Method	USB (cable included)
Dimensions	Compact (varies by model)
Usage Environment	Indoor (dry areas) – IP20
Certification	CE, RoHS (upon request)
MOQ	100 units (custom logo available)

### Recommended Applications

**Smart Home Lighting** – Enhance user comfort and automation in closets, corridors, or under beds.

**Furniture Integration** – Add lighting inside wardrobes, drawers, or kitchen cabinets.

**Office & Commercial Interiors** – Provide temporary or accent lighting for restrooms, meeting rooms, or display shelves.

**Real Estate & Property Management** – Easy-to-install lighting for rental units or properties with limited wiring.

**Retail & Display Lighting** – Highlight products or shelves in stores and exhibitions.

### Why Choose This LED Sensor Light?

Designed for **B2B buyers** who need scalable, quality lighting for smart environments.

Supports **custom logo, packaging, and ODM/OEM** for wholesale clients.

Easy-to-install design reduces labor cost and installation time.

Flexible use across industries – from hospitality to home furnishings.
