Basic Information

- Place of Origin: Guangdong, China
- Brand Name: LINKOP
- Certification: CE
- Model Number: LCSD-12V5050-RGB-60D-IP20
- Minimum Order Quantity: 50 meters
- Price: \$0.9/meters
- Packaging Details: bag
- Delivery Time: 3-8 work days
- Payment Terms: T/T
- Supply Ability: 500000meters/month

Product Specification

- Service Life: Up To 50,000 Hours Or More
- Environmental Friendly: No Radiation, Mercury-free, And Green
- Watt: 5W
- Product Name: Ultra-thin Led Cabinet Light Aluminum
Embedded Human Body Induction Display
Cabinet Hard Light Strip
- Brightness: More Than 20LM Per Lamp Bead
- Output Voltage: 12V36W
- Operating Temperature: -40 To 120
- Power Input: DC12V
- Highlight: **battery powered LED strip light ,
US socket LED strip light,
energy efficient LED strip light**

Product Description

Product Description:

Introducing our high-quality LED Strip Lights, the perfect solution for adding ambiance and illumination to any space. Our Flexible LED Strip Lighting is designed to provide a versatile and energy-efficient lighting option for various applications, from home decor to commercial settings.

Power Input: DC12V

Output Voltage: 12V36W

Environmental Friendly: Our COB LED Strip Light is environmentally friendly, emitting no radiation and containing no mercury. It is a green lighting option that is safe for both indoor and outdoor use.

Product Category: LED Strip Lights

IP Rating: IP20

Our Flexible LED Strip Lighting offers a wide range of features and benefits. With a power input of DC12V, it provides a reliable and efficient lighting solution that is easy to install and use. The output voltage of 12V36W ensures bright and consistent illumination, perfect for creating the desired atmosphere in any space.

Our COB LED Strip Light is designed to be durable and long-lasting, providing years of reliable performance. The IP20 rating ensures that it is protected against dust and small objects, making it suitable for a variety of indoor applications.

Whether you're looking to add accent lighting to your home, create a stunning visual display, or enhance the ambiance of a commercial space, our LED Strip Lights are the ideal choice. With their flexibility and versatility, they can be easily customized to fit any space and design aesthetic.

Our Flexible LED Strip Lighting is not only practical but also stylish, adding a modern and sleek touch to any room. The COB LED technology ensures bright and uniform lighting, creating a visually appealing effect that will impress your guests and customers.

With our LED Strip Lights, you can enjoy the benefits of energy-efficient lighting without compromising on quality or performance. The environmentally friendly design of our products makes them a sustainable choice for anyone looking to reduce their carbon footprint and energy consumption.

Upgrade your lighting setup with our LED Strip Lights today and experience the difference that quality and innovation can make.

Transform any space into a well-lit and inviting environment with our reliable and stylish lighting solutions.

Features:

Product Name: LED Strip Lights

Service Life: Up to 50,000 hours or more

Output Voltage: 12V36W

Input Voltage: 220-240V

Ip Rating: Ip20

Product Category: LED Strip Lights

Technical Parameters:

Watt	5W
Color Options	3000K/4000K/6000K
Product Name	Ultra-thin Led Cabinet Light Aluminum Embedded Human Body Induction Display Cabinet Hard Light Strip
Energy Efficiency	More than 80% energy saving compared to traditional halogen and incandescent lamps
Power Source	Plug-in
Product Category	LED Strip Lights
Ip Rating	Ip20
Cct	3000K/4000K/6000K
Environmental Friendly	No radiation, mercury-free, and green
Service Life	Up to 50,000 hours or more

Applications:

LED strip lights are versatile lighting solutions that can be used in a variety of occasions and scenarios due to their flexibility and energy efficiency. The LINKOP LCSD-12V5050-RGB-60D-IP20 LED strip lights, certified with CE, are manufactured in Guangdong, China, and are ideal for a wide range of applications.

Product Application Occasions and Scenarios:

1. Home Decor: The dimmable LED strip lights can be used to create ambient lighting in living rooms, bedrooms, kitchens, and bathrooms. With a brightness of more than 20LM per lamp bead, they can enhance the atmosphere and aesthetic appeal of any living space.

2. Retail Stores: These 24V LED strip lights are perfect for highlighting product displays, shelves, and signage in retail stores. The energy-efficient LEDs provide bright and uniform lighting to attract customers and showcase merchandise effectively.

3. Hospitality Industry: Hotels, restaurants, and bars can benefit from the versatility of these LED strip lights to create a welcoming and inviting ambiance for guests. The plug-in power source and US socket type make installation and maintenance easy and convenient.

4. Event Decor: Whether it's a wedding, party, or corporate event, dimmable LED strip lights can be used to add a touch of elegance and style to any venue. The vibrant RGB colors and flexible design allow for creative lighting effects and customization.

5. Architectural Lighting: The LINKOP LED strip lights can be used for architectural accents, cove lighting, and under-cabinet lighting in residential and commercial buildings. With a supply ability of 500000 meters per month, they are suitable for large-scale projects and installations.

6. Outdoor Spaces: These IP20-rated LED strip lights are suitable for indoor applications, but can also be used in covered outdoor areas such as patios, decks, and gazebos. The durable and waterproof design ensures long-lasting performance and reliability.

7. Automotive Lighting: Car enthusiasts and professionals can use these LED strip lights for interior car lighting, accent lighting, and custom automotive projects. The CE certification guarantees quality and safety standards for automotive applications.

With a minimum order quantity of 50 meters and a price of \$0.9 per meter, the LINKOP LCSD-12V5050-RGB-60D-IP20 LED strip lights offer cost-effective and energy-efficient lighting solutions for various occasions and scenarios. The delivery time of 3-8 work days and packaging details in a bag make it convenient for customers to receive their orders promptly and securely.

Support and Services:

Our Product Technical Support and Services for LED Strip Lights include:

- Troubleshooting assistance for any issues with the LED strip lights
- Guidance on installation and usage of the LED strip lights
- Information on product specifications and features
- Warranty support and claims processing
- Assistance with setting up and controlling the LED strip lights
- Recommendations for maintenance and care of the LED strip lights

Packing and Shipping:

Product Packaging and Shipping: -----

Our LED Strip Lights are carefully packaged to ensure they arrive in perfect condition. Each strip is wrapped in protective material and placed in a sturdy box to prevent any damage during transit.

We offer fast and reliable shipping options to ensure you receive your LED Strip Lights in a timely manner. Orders are typically processed and shipped within 1-2 business days.

FAQ:

Q: What is the brand of these LED Strip Lights? -----

A: The brand of these LED Strip Lights is LINKOP.

Q: What is the model number of these LED Strip Lights?

A: The model number of these LED Strip Lights is LCSD-12V5050-RGB-60D-IP20.

Q: Where are these LED Strip Lights manufactured?

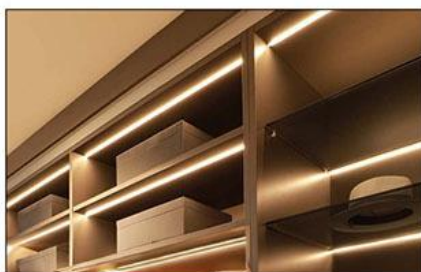

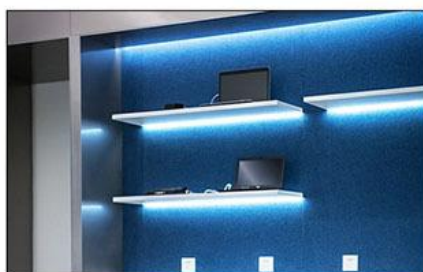

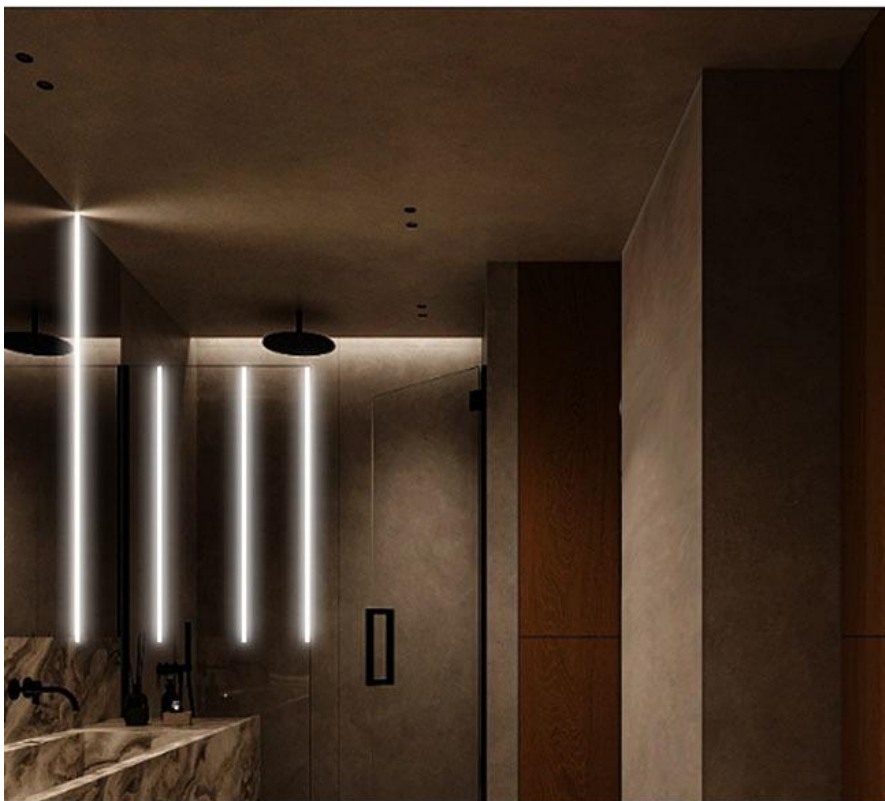

A: These LED Strip Lights are manufactured in Guangdong, China.

Q: What is the minimum order quantity for these LED Strip Lights?

A: The minimum order quantity for these LED Strip Lights is 50 meters.

Q: What are the accepted payment terms for purchasing these LED Strip Lights?

A: The accepted payment terms for purchasing these LED Strip Lights are T/T.
