

Customizable Cct 3000K/4000K/6000K LED Strip Lights for US Socket Type and DC12V Power Input

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: LINKOP
- Certification: CE
- Model Number: LCSD-12V5050-RGB-60D-IP20
- Minimum Order Quantity: 50 meters
- Price: \$0.9/meters
- Packaging Details: bag
- Delivery Time: 3-8 work days
- Payment Terms: T/T
- Supply Ability: 500000meters/month

Product Specification

- Leds Type: SMD2835
- Product Name: Ultra-thin Led Cabinet Light Aluminum
Embedded Human Body Induction Display
Cabinet Hard Light Strip
- Power Input: DC12V
- Output Voltage: 12V36W
- Brightness: More Than 20LM Per Lamp Bead
- Socket Type: US
- Input Voltage: 220-240V
- Environmental Friendly: No Radiation, Mercury-free, And Green
- Highlight: **customizable LED strip lights 3000K-6000K,
LED strip lights US socket type,
12V DC LED strip lights**

Product Description

Product Description:

The Ultra-thin Led Cabinet Light Aluminum Embedded Human Body Induction Display Cabinet Hard Light Strip is a top-of-the-line product in the LED Strip Lights category. Boasting exceptional safety features, this LED strip light is designed to be safe and reliable for everyday use. With an IP rating of IP20, it offers protection against solid objects larger than 12mm and has no specific protection against water ingress.

One of the standout features of this LED strip light is its energy efficiency, providing more than 80% energy savings compared to traditional halogen and incandescent lamps. This not only helps reduce energy consumption but also contributes to a more sustainable and eco-friendly lighting solution.

Whether you need Digital LED Strip Lights, Grow Light LED Strips, or 24V LED Strip Light, this product is versatile and suitable for a variety of applications. Its ultra-thin design makes it ideal for use in cabinets, displays, or any other space where discreet lighting is desired.

With a focus on both functionality and aesthetics, this LED strip light is crafted to enhance the ambiance and visual appeal of any environment. The aluminum embedded body ensures durability and longevity, while the human body induction feature adds a touch of convenience by automatically turning on the light when motion is detected.

Illuminate your space with the Ultra-thin Led Cabinet Light Aluminum Embedded Human Body Induction Display Cabinet Hard Light Strip and enjoy the benefits of modern LED lighting technology. Create a welcoming atmosphere, save on energy costs, and experience the reliability of this premium LED strip light.

Features:

Product Name: LED Strip Lights

Color Options: 3000K/4000K/6000K

Safety Features: Safe and reliable to use

Energy Efficiency: More than 80% energy saving compared to traditional halogen and incandescent lamps

CCT: 3000K/4000K/6000K

Output Voltage: 12V36W

Technical Parameters:

Power Input	DC12V
Operating Temperature	-40 To 120
Color Options	3000K/4000K/6000K
Environmental Friendly	No radiation, mercury-free, and green
Watt	5W
Cct	3000K/4000K/6000K
Product Name	Ultra-thin Led Cabinet Light Aluminum Embedded Human Body Induction Display Cabinet Hard Light Strip
Product Category	LED Strip Lights
Socket Type	US
Power Source	Plug-in

Applications:

LED Strip Lights from LINKOP, model LCSD-12V5050-RGB-60D-IP20, are versatile lighting solutions suitable for a wide range of applications. With CE certification and originating from Guangdong, China, these high-quality LED strip lights offer a minimum order quantity of 50 meters at an attractive price of \$0.9 per meter. Payment terms are flexible through T/T, and the supply ability is an impressive 500,000 meters per month with a quick delivery time of 3-8 work days.

The LED strip lights are ideal for various occasions and scenarios due to their flexibility and durability. They are perfect for both residential and commercial settings, such as homes, restaurants, hotels, bars, shops, and offices. The vibrant RGB colors add a dynamic ambiance to any space, making them great for parties, events, and decorative lighting.

With a power input of DC12V, these LED strip lights are energy-efficient and cost-effective. The color options of 3000K, 4000K, and 6000K provide flexibility to suit different preferences and lighting needs. The safety features of the product make it safe and reliable to use, giving customers peace of mind. Additionally, the LED strip lights are environmentally friendly, as they are radiation-free, mercury-free, and contribute to a green environment.

Whether for accent lighting, task lighting, or decorative purposes, the LINKOP LED Strip Lights are a practical choice. The packaging details in a bag ensure convenient handling and storage. Customers can also explore other options such as COB LED Strip Lights or 24V LED Strip Lights in the same product category, offering even more versatility in lighting solutions.

Support and Services:

Our Product Technical Support and Services for LED Strip Lights include troubleshooting assistance, product recommendations, ----- installation guidance, and warranty information. Our team of experts is available to help you with any issues or questions you may have regarding your LED strip lights.

Packing and Shipping:

Product Packaging:

Our LED Strip Lights are carefully packaged to ensure safe delivery to your doorstep. Each light strip is wrapped in protective material and placed in a sturdy cardboard box to prevent damage during transit.

Shipping:

We offer fast and reliable shipping services for all orders of our LED Strip Lights. Once your order is placed, we will process it quickly and provide you with a tracking number so you can monitor the delivery status. Your lights will be shipped securely to your address, ready to illuminate your space.
