

High Brightness and Safety Features US Socket Type LED Strip Lights with More than 20LM per Lamp Bead

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: LINKOP
- Certification: CE
- Model Number: LCSD-12V5050-RGB-60D-IP20
- Minimum Order Quantity: 50 meters
- Price: \$0.9/meters
- Packaging Details: bag
- Delivery Time: 3-8 work days
- Payment Terms: T/T
- Supply Ability: 500000meters/month

Product Specification

- Environmental Friendly: No Radiation, Mercury-free, And Green
- Color Options: 3000K/4000K/6000K
- Operating Temperature: -40 To 120
- Energy Efficiency: More Than 80% Energy Saving Compared To Traditional Halogen And Incandescent Lamps
- Socket Type: US
- Watt: 5W
- Ip Rating: Ip20
- Service Life: Up To 50,000 Hours Or More
- Highlight: **US socket LED strip lights, high brightness LED strip lights, 20LM per bead LED strips**

Product Description

Product Description:

The COB LED Strip Light is a versatile lighting solution that offers both functionality and style. With a power input of DC12V, these LED strip lights are easy to install and operate, making them ideal for a variety of applications.

One of the standout features of these LED strip lights is their impressive brightness, with more than 20LM per lamp bead. This ensures that the lights provide ample illumination for any space, whether it's a residential, commercial, or industrial setting.

Not only are these LED strip lights powerful, but they are also environmentally friendly. They are free from radiation and mercury, making them a safe and sustainable choice for your lighting needs. Additionally, these lights are green, meaning they have a minimal impact on the environment.

When it comes to energy efficiency, these LED strip lights excel. They offer more than 80% energy savings compared to traditional halogen and incandescent lamps, helping you reduce your energy consumption and lower your electricity bills.

Another key benefit of these LED strip lights is their long service life. With a lifespan of up to 50,000 hours or more, you can enjoy reliable and long-lasting illumination without the need for frequent replacements.

Whether you're looking for flexible LED strip lighting for decorative purposes or functional lighting solutions, these COB LED Strip Lights are a top choice. Their flexibility allows you to easily adjust and install the lights in various settings, making them a versatile lighting option for any project.

Upgrade your lighting setup with these high-quality and efficient LED strip lights today. Experience the benefits of superior brightness, energy savings, environmental friendliness, and long-lasting performance with these innovative and reliable lighting solutions.

Features:

Product Name: Ultra-thin Led Cabinet Light Aluminum-Embedded Human-Body-Induction-Display Cabinet Hard Light Strip-----

Brightness: More than 20LM per lamp bead

Color Options: 3000K/4000K/6000K

Input Voltage: 220-240V

Warranty: 2~3 years optional

Technical Parameters:

Energy Efficiency	More than 80% energy saving compared to traditional halogen and incandescent lamps-----
Output Voltage	12V36W
Operating Temperature	-40 To 120
Watt	5W
Input Voltage	220-240V
Ip Rating	Ip20
Product Name	Ultra-thin Led Cabinet Light Aluminum Embedded Human Body Induction Display Cabinet Hard Light Strip
Safety Features	Safe and reliable to use
Power Input	DC12V
Environmental Friendly	No radiation, mercury-free, and green

Applications:

LED strip lights are versatile lighting solutions suitable for a wide range of applications and scenarios due to their flexibility, energy efficiency, and vibrant lighting effects. The LINKOP LCSD-12V5050-RGB-60D-IP20 LED strip lights are CE certified and originate from Guangdong, China. With a minimum order quantity of 50 meters and a competitive price of \$0.9/meter, these LED strip lights are ideal for various settings.

The product is perfect for both residential and commercial use, offering a dynamic lighting solution for different occasions. The colour-changing feature of the LED strip lights makes them ideal for creating ambience and setting the mood in spaces such as homes, restaurants, bars, and hotels. The flexibility of the LED strips allows for creative lighting designs, making them suitable for accent lighting, cove lighting, and under cabinet lighting.

With an output voltage of 12V36W and a brightness of more than 20LM per lamp bead, these LED strip lights provide adequate illumination for different settings. The availability of CCT options including 3000K, 4000K, and 6000K ensures that users can customize the lighting to suit their needs and preferences.

The energy efficiency of these LED strip lights, offering more than 80% energy savings compared to traditional halogen and incandescent lamps, makes them a sustainable lighting solution for various applications. Additionally, the optional 2-3 years warranty provides users with peace of mind regarding the product's quality and durability.

Whether used for decorative purposes, task lighting, or ambient lighting, the LINKOP LED strip lights are a reliable choice. With a supply ability of 500000 meters per month, quick delivery times of 3-8 work days, and convenient payment terms of T/T, these LED strip lights

are suitable for projects of all sizes. Packaged in bags for easy transportation and installation, these LED strip lights are a convenient and efficient lighting solution for any space.

Support and Services:

Our LED Strip Lights product comes with comprehensive Product Technical Support and Services to ensure you have a smooth and satisfying experience. Our technical support team is readily available to assist you with any inquiries regarding installation, troubleshooting, or usage of the LED strip lights.

We also offer additional services such as product demonstrations, custom installation solutions, and maintenance guidance to help you make the most of your LED strip lights. Our goal is to provide you with the necessary support to maximize the performance and longevity of your lighting setup.

Feel free to reach out to our technical support team for any assistance or guidance you may require to enhance your LED lighting experience.

Packing and Shipping:

Product Packaging:

Our LED Strip Lights are carefully packaged to ensure safe delivery to your doorstep. Each set of lights is wrapped in protective bubble wrap and placed in a sturdy cardboard box to prevent any damage during transit.

Shipping Information:

We offer fast and reliable shipping for all orders of LED Strip Lights. Once your order is placed, our team will process it within 1-2 business days. Depending on your location, you can expect your lights to arrive within 3-7 business days. We also provide tracking information so you can monitor the status of your shipment.

FAQ:

Q: What is the brand name of these LED Strip Lights?

A: The brand name is LINKOP.

Q: What is the model number of these LED Strip Lights?

A: The model number is LCSD-12V5050-RGB-60D-IP20.

Q: Where are these LED Strip Lights manufactured?

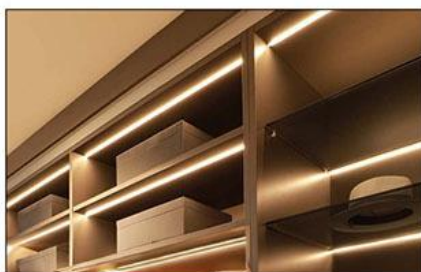

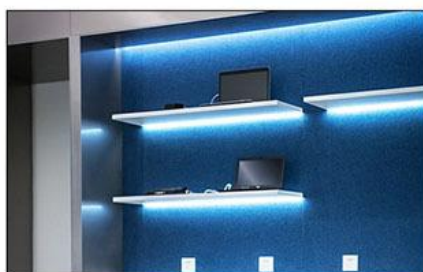

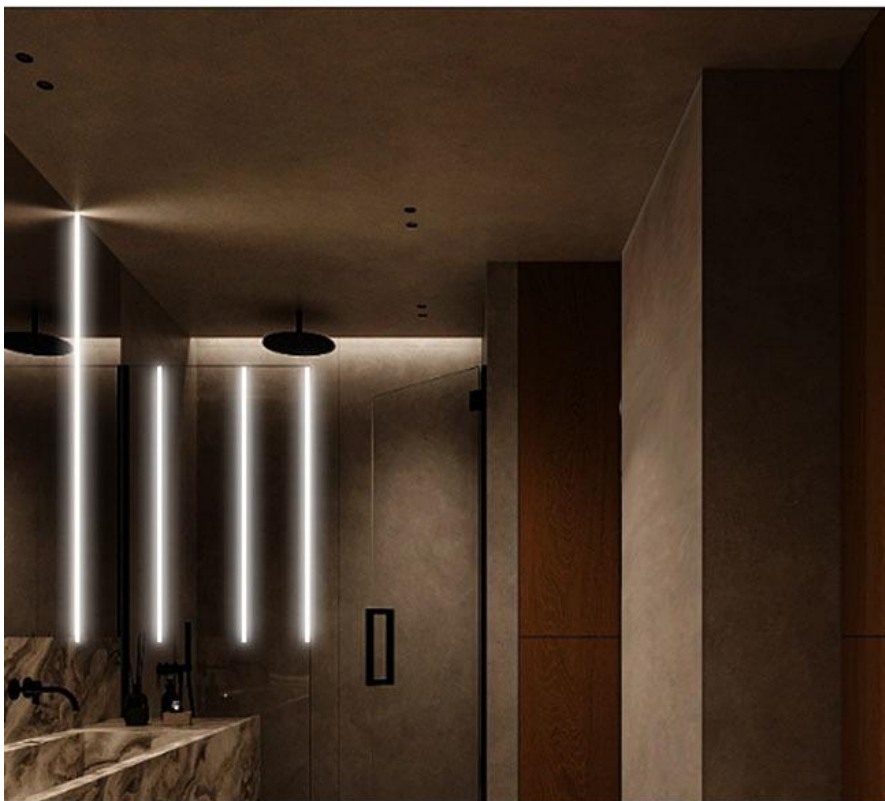

A: These LED Strip Lights are manufactured in Guangdong, China.

Q: What is the minimum order quantity for these LED Strip Lights?

A: The minimum order quantity is 50 meters.

Q: What are the payment terms accepted for purchasing these LED Strip Lights?

A: The accepted payment terms are T/T.
