

US Socket Type Color Changing LED Strip Lights with DC12V Power Input

Our Product Introduction

for more products please visit us on ledslightstrip.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: LINKOP
- Certification: CE
- Model Number: LCSD-12V5050-RGB-60D-IP20
- Minimum Order Quantity: 50 meters
- Price: \$0.9/meters
- Packaging Details: bag
- Delivery Time: 3-8 work days
- Payment Terms: T/T
- Supply Ability: 500000meters/month

US Socket Type
Color Changing LED Strip Lights with
DC12V Power Input

Product Specification

- Energy Efficiency: More Than 80% Energy Saving Compared To Traditional Halogen And Incandescent Lamps
- Leds Type: SMD2835
- Color Options: 3000K/4000K/6000K
- Ip Rating: Ip20
- Service Life: Up To 50,000 Hours Or More
- Socket Type: US
- Power Source: Plug-in
- Operating Temperature: -40 To 120
- Highlight: **US socket LED strip lights, color changing LED strips, 12V DC LED strip lights**

Product Description

Product Description:

Introducing our top-of-the-line 5050 RGB LED Strip Lights, the ultimate solution for those seeking energy-efficient and versatile lighting options. With a wattage of 5W, these LED strip lights offer impressive energy efficiency, providing over 80% energy savings compared to traditional halogen and incandescent lamps. Say goodbye to high energy bills and hello to cost-effective illumination!

Designed to operate at an output voltage of 12V36W, our Flexible LED Strip Lighting system ensures consistent and reliable performance. Whether you're looking to enhance the ambiance of your living space, add a touch of style to your automotive interior with Automotive LED Light Strips, or create a dynamic lighting display for special events, these LED strip lights are up to the task.

Not only are our LED strip lights energy-efficient, but they are also environmentally friendly. With a rating of IP20, these lights are protected against solid objects greater than 12.5mm in size, making them suitable for indoor use. Additionally, our LED strip lights are free from radiation and mercury, ensuring a safe and green lighting solution for you and your loved ones.

Enjoy the flexibility and versatility of our 5050 RGB LED Strip Lights, allowing you to customize your lighting according to your needs and preferences. Whether you want to create a vibrant ambiance with a spectrum of colors or simply illuminate a specific area with a single hue, these LED strip lights offer endless possibilities.

Enhance your space with the brilliance of our LED strip lights, whether you're a homeowner looking to upgrade your lighting setup or a professional seeking innovative lighting solutions. With easy installation and a long lifespan, these LED strip lights are a reliable and stylish choice for any lighting project.

Experience the difference that our LED strip lights can make in your home, office, or vehicle. Transform any space into a well-lit oasis with the power of energy-efficient, environmentally friendly, and versatile lighting solutions. Upgrade to our 5050 RGB LED Strip Lights today and discover a new world of illumination possibilities!

Features:

Product Name: LED Strip Lights

Output Voltage: 12V36W

Ip Rating: Ip20

Product Category: LED Strip Lights

Power Input: DC12V

Input Voltage: 220-240V

Features:

Dimmable LED Strip Light

Grow Light LED Strips

COB LED Strip Light

Technical Parameters:

Cct	3000K/4000K/6000K
Input Voltage	220-240V
Warranty	2~3 years optional
Brightness	More than 20LM per lamp bead
Energy Efficiency	More than 80% energy saving compared to traditional halogen and incandescent lamps
Safety Features	Safe and reliable to use
Output Voltage	12V36W
Ip Rating	Ip20
Leds Type	SMD2835
Environmental Friendly	No radiation, mercury-free, and green

Applications:

LED Strip Lights from LINKOP are versatile lighting solutions suitable for a wide range of applications in various settings. The Model Number LCSD-12V5050-RGB-60D-IP20 is equipped with CE certification, ensuring high quality and safety standards. Manufactured in Guangdong, China, these LED strip lights have a minimum order quantity of 50 meters at a competitive price of \$0.9 per meter.

The Product Name Ultra-thin Led Cabinet Light Aluminum Embedded Human Body Induction Display Cabinet Hard Light Strip is designed for multiple application occasions and scenarios. The IP20 rating makes it suitable for indoor use, perfect for under-cabinet lighting, display cabinets, and accent lighting in residential and commercial spaces.

With a socket type of US and a plug-in power source, these LED strip lights are easy to install and use. The safety features ensure that they are safe and reliable for everyday use. The automotive LED light strips can also be used in vehicles for custom lighting effects.

Thanks to the supply ability of 500,000 meters per month, large orders can be accommodated with a quick delivery time of 3-8 work days.

The packaging details in a bag provide convenience and protection during shipping.

Whether used for decorative purposes, task lighting, or accentuating architectural features, these 24V LED strip lights offer energy-efficient illumination with a long lifespan. Additionally, the battery-powered LED strip light option provides flexibility for areas where access

to power outlets is limited.
Overall, LINKOP's LED Strip Lights are a cost-effective and versatile lighting solution suitable for a wide range of indoor applications, combining quality, reliability, and convenience.

Support and Services:

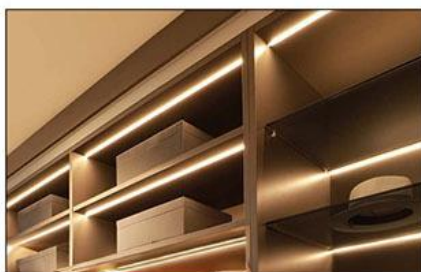

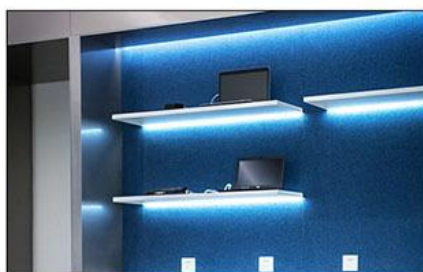

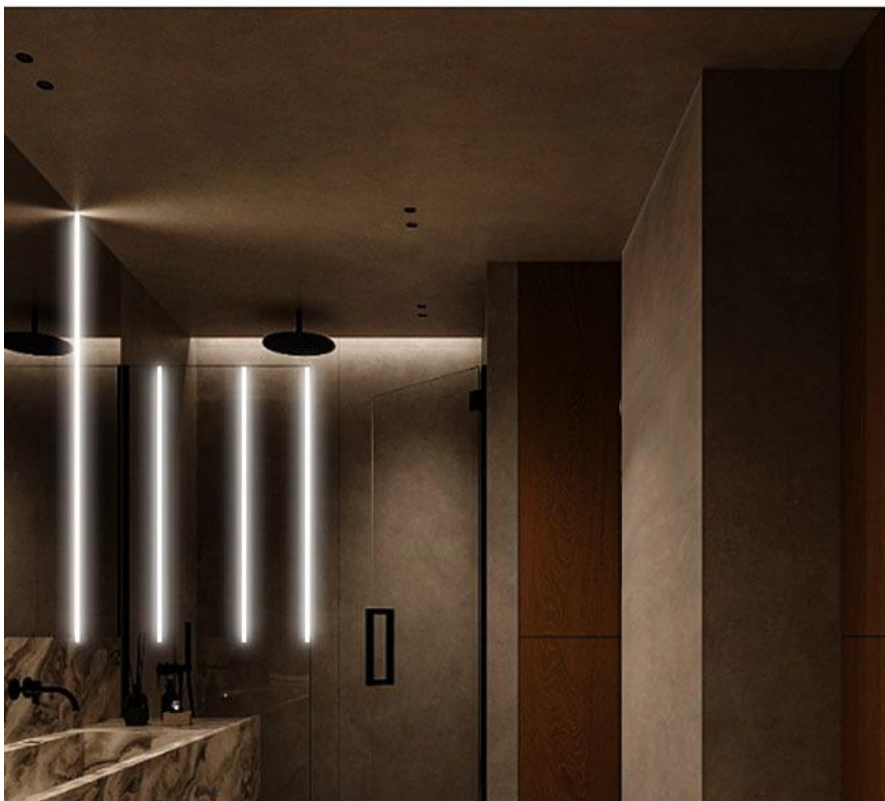

Our product technical support team is dedicated to helping you with any questions or issues you may have regarding our LED Strip Lights. We offer troubleshooting assistance to ensure you get the most out of your lighting system. In addition to technical support, we also provide various services such as installation guidance, product customization options, and warranty assistance. Our goal is to ensure that you have a seamless experience with our LED Strip Lights from start to finish.

Packing and Shipping:

Product Packaging: Each LED Strip Lights set is carefully packed in a sturdy box to ensure safe delivery. The components are securely placed to prevent any damage during shipping.
Shipping: We offer fast and reliable shipping services for our LED Strip Lights products. Orders are processed promptly and shipped with tracking information provided for your convenience. We strive to ensure that your LED Strip Lights reach you in perfect condition and in a timely manner.

FAQ:

Q: What is the brand of these LED Strip Lights?
A: The brand of these LED Strip Lights is LINKOP.
Q: What is the model number of these LED Strip Lights?
A: The model number of these LED Strip Lights is LCSD-12V5050-RGB-60D-IP20.
Q: Where are these LED Strip Lights manufactured?
A: These LED Strip Lights are manufactured in Guangdong, China.
Q: What is the minimum order quantity for these LED Strip Lights?
A: The minimum order quantity for these LED Strip Lights is 50 meters.
Q: What are the accepted payment terms for purchasing these LED Strip Lights?
A: The accepted payment terms for purchasing these LED Strip Lights are T/T.
