### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: LINKOP
- Certification: CE
- Model Number: LCSD-12V5050-RGB-60D-IP20
- Minimum Order Quantity: 50 meters
- Price: \$0.9/meters
- Packaging Details: bag
- Delivery Time: 3-8 work days
- Payment Terms: T/T
- Supply Ability: 500000meters/month

### Product Specification

- Adhesive LED Rope Lights: Yes
- Led Type: SMD 5050
- Switch Mode: Remote Control
- Led Quantity: 60 LEDs/m
- Color-Changing Light Strips: Yes
- Lamp Body Material: PVC
- Voltage: 12V
- Length: 5 M/roll
- Highlight: **PVC LED strip lights, color changing LED strips , indoor outdoor LED lights**

## Product Description

### Product Description:

One of the standout features of our LED strip lights is their dimming capability. This allows you to easily adjust the brightness to create the ideal lighting atmosphere for any occasion. Whether you're looking for a soft glow or a more intense lighting effect, these LED strip lights have you covered.

Enhancing the convenience and functionality of these LED strip lights is the included remote control. With the remote control, you can effortlessly change the color and brightness of the lights from the comfort of your seat. This makes it easy to customize the lighting to suit your preferences without having to get up and manually adjust the settings.

The RGB emitting color of these LED strip lights adds a dynamic element to your space. With the ability to display a wide range of colors, you can create captivating lighting displays that enhance the visual appeal of any room.

These LED strip lights are not just limited to traditional lighting applications. With their versatility and quality construction, they can also be used for specialized purposes such as COB LED strip light setups or even as grow light LED strips for indoor plants. The high-quality LEDs ensure reliable performance and long-lasting brightness, making them a great choice for a variety of lighting needs.

Whether you want to add a pop of color to your living room, create a relaxing ambiance in your bedroom, or set up a grow light system for your plants, our 24V LED strip lights are the ideal solution. With their superior quality, dimming capability, remote control convenience, and RGB emitting color, these LED strip lights offer a versatile and reliable lighting option for both residential and commercial settings.

### Features:

Product Name: LED Strip Lights

Type: 5050 RGB LED Strip Lights

Switch Mode: Remote Control

Length: 5 M/roll

Applications: Indoor and Outdoor

Led Specification: 3 leds/groups

### Technical Parameters:

Item Type	Light Strips

Adhesive LED Rope Lights	Yes
Led Quantity	60 LEDs/m
Lamp Body Material	PVC
Life	30,000h
Emitting Colour	RGB
Led Type	SMD 5050
Voltage	12V
Color-Changing Light Strips	Yes

### Applications:

Product Application Occasions and Scenarios for LINKOP LED Strip Lights:

The LINKOP LCSD-12V5050-RGB-60D-IP20 LED Strip Lights are versatile lighting solutions suitable for various occasions and scenarios. With their high-quality features and specifications, they can be used in a wide range of settings, making them a popular choice among consumers. Here are some product application occasions and scenarios where these LED strip lights can be effectively utilized:

**1. Home Decor:** LINKOP LED Strip Lights are perfect for enhancing the ambiance of homes. They can be used to add accent lighting to living rooms, bedrooms, kitchens, and even outdoor spaces like patios and gardens.

**2. Commercial Spaces:** These LED strip lights are also ideal for lighting up commercial spaces such as shops, restaurants, hotels, and offices. They can create a welcoming atmosphere and draw attention to specific areas or products.

**3. Entertainment Areas:** LINKOP LED Strip Lights are great for entertainment areas like bars, clubs, and theaters. The color-changing feature adds a dynamic element to the space, enhancing the overall experience.

**4. Grow Light LED Strips:** For indoor gardening enthusiasts, these LED strip lights can be used as grow lights to promote plant growth. The energy-efficient LEDs provide the necessary light spectrum for plants to thrive.

**5. Architectural Lighting:** The flexibility of LINKOP LED Strip Lights makes them suitable for architectural lighting applications. They can be installed to highlight architectural features, create accent lighting, or illuminate pathways.

**6. COB LED Strip Light:** The high brightness and uniform illumination of these LED strip lights make them an excellent choice for applications requiring concentrated light output, such as in showcases or display cabinets.

**7. Flex LED Strip Light:** The flexible design of these LED strip lights allows for easy installation in curved or irregular spaces. They can be used to add subtle lighting effects around furniture, mirrors, or ceilings.

With their CE certification and durable PVC lamp body material, LINKOP LED Strip Lights ensure safety and reliability in any application. Customers can place orders with a minimum quantity of 50 meters at a competitive price of \$0.9 per meter. Payment terms are convenient with T/T accepted, and the supply ability of 500,000 meters per month ensures timely delivery within 3-8 work days. The

packaging details include a protective bag for secure transportation. Take advantage of the remote control feature and color-changing capabilities of these 12V LED strip lights, which come with 3 LEDs per group, to create customized lighting scenarios for any occasion.

## Support and Services:
