Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: LINKOP
- Certification: CE
- Model Number: LCSD-12V5050-RGB-60D-IP20
- Minimum Order Quantity: 50 meters
- Price: \$0.9/meters
- Packaging Details: bag
- Delivery Time: 3-8 work days
- Payment Terms: T/T
- Supply Ability: 500000meters/month

Product Specification

- Server: Openresty
- Product Name: 403 Forbidden
- Status Code: 403
- Highlight: **high voltage LED strip lights,**
bright LED strip lights,
long-lasting LED strip lights

Product Description

Product Description:

403 Forbidden LED Strip Lights are a versatile lighting solution that offers a wide range of applications. Whether you are looking to enhance the ambiance of your home, add some flair to your vehicle, or illuminate a workspace, these LED strip lights are a perfect choice. With their automotive LED light strips, COB LED strip light technology, and flexible design, they provide bright and efficient lighting in a variety of settings.

The 403 Forbidden LED Strip Lights are designed with automotive applications in mind. They are perfect for adding custom lighting accents to cars, trucks, motorcycles, and other vehicles. The vibrant and energy-efficient COB LED technology ensures a bright and even illumination that will make your vehicle stand out on the road. Whether you want to highlight the interior of your car or add some flair to the exterior, these LED strip lights are easy to install and can be customized to fit your specific needs.

These LED strip lights are not just limited to automotive use; they are also ideal for a wide range of indoor and outdoor applications. The flexible design allows you to bend and shape the strip to fit around corners, under cabinets, or along any other surface. Whether you want to create a cozy atmosphere in your living room, brighten up your kitchen, or add some decorative lighting to your patio, these LED strip lights are a versatile and easy-to-use option.

One of the key features of the 403 Forbidden LED Strip Lights is their energy efficiency. The COB LED technology used in these lights is known for its high brightness and low power consumption. This means that you can enjoy bright and vibrant lighting without worrying about your energy bills. The long lifespan of the LEDs also ensures that you can enjoy years of reliable performance without the need for frequent replacements.

Installation of these LED strip lights is quick and easy, thanks to their adhesive backing and flexible design. You can easily attach the strip to any clean and dry surface, and the flexibility of the strip allows you to navigate around corners and obstacles with ease. The strip can be cut to size at designated cut marks, making it simple to customize the length to fit your specific needs. Whether you are a DIY enthusiast or a professional installer, these LED strip lights are user-friendly and hassle-free to set up.

With their versatile applications, energy-efficient design, and easy installation, the 403 Forbidden LED Strip Lights are a top choice for anyone looking to add bright and stylish lighting to their space. Whether you are enhancing the look of your vehicle, illuminating your home, or brightening up your workspace, these LED strip lights offer a reliable and cost-effective solution.
